

Sinan Uygun

COMPUTER ENGINEER

PROFESSIONAL SUMMARY

I completed my undergraduate studies in Computer Engineering at Erciyes University. During my education, I had the opportunity to work with a variety of software languages and frameworks. I am committed to ongoing professional development and specialising in new languages and frameworks. In this way, I am endeavouring to gain experience in a variety of fields.

EDUCATION

Computer Engineer | Bachelor's | 2019-2025

Erciyes University, Kayseri

- GPA: 2.68

FINAL PROJECT

Steganografi | 2023-2024

Erciyes University

- Python, AES, Tkinter
- The process involves concealing text information within image and audio files, and subsequently extracting it. The text is encrypted in such a way that AES conditions are met. Therefore, the decryption is done with the key.
